During the course of the Fiscal Year (7/1/22 – 6/30/23), each of the courses above will impart two completions. One completion imparted is the course completion. The second completion imparted is the CPTP Continuing Education completion (designated on learning histories as SCS CPTP Continuing Education 2023). It is this that is used to track compliance with the continuing education requirement. The continuing education completion will only be imparted beginning July 1, 2022 through June 30, 2023. If the course is taken prior to July 1, 2022, the learner will only receive the course completion and not the continuing education completion. CPTP will not add continuing education completions for learners who completed the course prior to July 1, 2022.
